Quality Work Done Safely Means Staying Safe

In-Place Machining Company is taking substantial steps to both keep our employees safe and provide onsite services throughout the COVID-19 outbreak. As a key supplier to many Critical

Now with 4 locations—with the recent addition of our [Pacific Northwest Division](#) in Vancouver, Washington—In-Place Machining Company is ready to serve you with quality field machining and

Marine Gearbox Repair Performed in the Ship

Infrastructure sectors, IPM is working hard to keep our customers operational. We have been supporting our defense, power generation, paper, steel production and other industries with precision on-site machining, field measurement services, and diamond wire cutting with the same value and quality that IPM is known for all over the world.

Our entire work force has taken steps to protect themselves, their colleagues, our customers, and their families during this time. These steps include minimizing air travel, limiting the number of personnel in car & trucks, modifying working hours to limit employee in person contact, and supplying employees with additional PPE. We are also following and closely monitoring the CDC recommendations and guidelines, with frequent review of our policies on an ongoing basis.

measurement services. If you have any questions please **Contact Us** at help@inplace.com or **Call IPM Today at 414-562-2000.**
