## Machining and Measurement For The **Steel & Metals** Producing Industry.

These examples represent only a few of the many types of machining, welding, alignment & measurement services that In-Place Machining Company offers our metal producing customers. In fact, IPM provides more on-site repair services to the metals producing industry than any other company in the world. Our dedicated workforce of skilled engineers, machinists, welders and alignment technicians, working with our huge inventory of specialized equipment and instrumentation makes it possible for IPM to accommodate any customer requirement, from planned maintenance or modernization to emergency break-downs. And we pride ourselves on providing the highest quality, most responsive, and uniquely innovative service in the industry. Whether you have a small repair or a massive modernization project, In-Place Machining Company will work with you to minimize down-time and stretch your budget dollars. Next time a problem threatens your production, In-Place Machining Company can help get you back on-line, **In Place... Any Place in the World.**

# WHERE TECHNOLOGY MEETS EXPERIENCE.

- Mill Housing Faces, Seats & Screw-Downs
- Inter-Stand Equipment, Guide Boxes, Spray Headers & Chock Clamps
- Gearbox Refurbishment, Welding & Machining
- Drive Motor & Pinion Stand Alignment
- BOF & Ladle Trunnion Pin Machining Without Rotation
- Blast Furnace Lip Ring & Caster Slew Bearing Surfaces
- Drive Motor & Pinion Stand Alignment
- Metrology: Optical, Laser, and Laser Tracker Measurement & Alignment
- Coilers, Crop Shears & Edgers
- Furnaces, BOF, EAF & Casters
- R-Stamp Certified Pressure Vessel Welding
- Metalstitch® Cold Cast Iron Repair
  - Diamond Wire Cutting and Core Drilling
