Training Table	Repurposed Flip & Nest table	As-is reuse	12	1,800	100%	
TOTAL DIVERSION BY WEIGHT			96	10,925	83%	

Office Furniture Resources congratulates In Place Machining on their choice to select reused and refurbished office furniture for their recent work space expansion. Their purchase of reused and refurbished cubicles, desk chairs, training tables and stacking chairs diverted an estimated 10,925 lbs of waste from landfill. The total rate of landfill diversion by percentage reused vs new materials (new fabric and paint for example) of their purchase was 83%. Reusing office furniture, in it's original condition or refurbished, reduces landfill use, energy use, resource use and carbon emissions. OFR is proud to have partnered with IPM in thier mission to be environmentally responsible and good corporate citizens.
